SCAV Celebrates 1 Year Anniversary

New Year

January 1, 2013 marks the first anniversary of the split from Advanced Video, Inc.

As we move forward into the New Year, we look back and are thankful for a great first year. We made a lot of progress of getting out of the gate as a new startup company. Thanks to everyone who helped make this a success.

It had been a long time (27 years) since I started a new company so I had to learn a lot of things all over again. But we got through it and now we are on our way to another year filled with fun things to see and do.

In February we will embark on the cross country trip to San Diego CA. More to come on that trip later.

New Inventory Coming

As we move more into the digital age and become more dependent on iPads, iPhones etc., we are currently updating our inventory adding some new toys.

We will be releasing a complete listing of our new equipment once we receive it and place it into service.

Some items include moving lights, digital audio mixers, more digital switchers and processors for video.
